SUMMARY

I am a dynamic and results-driven professional with a proven ability to excel in project management, consistently delivering high-quality solutions through effective collaboration with cross-functional teams having 2.10+ years of experience in system engineering and a strong background in Linux/Unix Administration, Middleware Administration, and Cloud Operations along with expertise with deployments, Maintenance and troubleshooting applications.

KEY COMPETENCIES

Middleware Operation	System Engineer	Strong interpersonal skills
Cloud Operations	Critical thinking skills	Proactive and self-motivated
Linux System Administrator	Excellent communication skills	Management skills

PROFESSIONAL EXPERIENCE

Infosys - EdgeVerve Systems

Senior System Engineer

Aug2022 - Present

- Contributed towards cloud middleware operations for a prominent SaaS platform specializing in supply chain management (TradeEdge) at Edgeverve.
- Spearheaded application middleware operations including deployment of builds and upgrades, monthly OS patching, and development of automation scripts.
- Led migration and disaster recovery efforts for applications hosted on Google Cloud Platform (GCP). Worked on Task scheduler using Cronicle, Configuring APIs through wso2 API Manager, wso2 Identity server.
- Responsible for the maintenance, development, and troubleshooting of middleware components - Apache HTTPD, Apache Tomcat, Apache ActiveMQ, Microservices application.
- We are working on shifting VM-based applications to containerized environments using Kubernetes, enhancing scalability and efficiency. Collaborated with cross-functional teams to design a scalable cloud architecture, resulting in increase application performance and user satisfaction.
- We have focused on optimizing application to achieve zero downtime while ensuring high availability (HA), delivering seamless performance and reliability even during peak loads and system failures.

EDUCATION

Bachelor of Engineering - BE

K.K.Wagh institute of Engineering Education & Research

06/2018 - 06/2022

Higher Secondary School Education in Science

COMMERCE MANAGEMENT AND COMPUTER SCIENCE COLLEGE

06/2016 - 06/2018

Secondary School Education

New Era English School

06/2016

CERTIFICATIONS

Azure Fundamentals - AZ-900

Microsoft Certified

Digital Transformation with Google Cloud

Google

Linux command line

Udemy

Docker for the Absolute Beginner - Hands On - DevOps

Udemy

SKILLS

- Google Cloud Platform (GCP)
 - Microsoft Azure
 - Linux System Administration
 - Cloud Infrastructure Management
 - Networking (TCP/IP, DNS, Load Balancing)
 - Containerization (Docker, Kubernetes)
 - Project Management
 - Datadog Integration
 - Middleware Operations
 - Troubleshooting and Debugging
 - Collaboration and Cross-Functional Coordination
 - Cloud Operations
-

ACHIEVEMENTS AND AWARDS

- **Stellar Award** : For Exceptional dedication and outstanding performance in completing the annual Disaster Recovery(DR) drill activity which was critical for ensuring business continuity
- **Applause Award**: Recognized for exceptional dedication and performance in ensuring the stability of platform
- **Consistent Top Performer**: Demonstrated exceptional performance in current role, consistently achieving ratings above 95%
